

Garden Design Contract

Garden consultation and design requires a \$500.00 deposit. This fee is due the first time we come to your home or business for consultation. Due to high demand and limited time, we are unable to offer free consultation. We will schedule a 2 hour consultation/design meeting at your property when you call 509 710 9692. This is your first step to a lovely garden!

We design gardens, but we do not build hardscapes nor do we plant the plants. We work with homeowners or the landscaper of your choice, or we can give you the name of a landscaper you can consider for the project. Our design process is efficient and easy, we design on site not on paper. We direct the construction process and then place Tower plants where they are to be planted. You can be involved or turn the work over to your landscape team; both approaches are common practice and familiar to us. We can also break large projects into workable stages and work together with you to set a comfortable budget for each stage.

Of that \$500 deposit, \$350 is credited towards your final invoice. Any shopping at the nursery must be paid separately since this deposit applies only towards plants we deliver. We will take care of all the shopping for you...we just discuss your budget, goals, the style and the look and we do the rest!

Translation: Superior garden design for a \$150 fee.

The other fee we charge besides the design fee is a delivery fee of \$200. This covers the fuel and labor for the plant delivery.

However, we want you to spend **your** money on plants, not on the delivery fees. We will waive all delivery fees in the Spokane area if you do these three things:

1. Spend a total of at least \$750 on plants (we can break projects into stages, but they must be at least this size).
2. Pay the base \$500 deposit by check or cash at the time of initial consultation.
3. Pay your invoice in full by check or cash within 1 week of its being mailed/emailed. Postmark or delivery to nursery during operating hours. No exceptions.

Follow these steps, and you will have a lovely garden at amazing savings, especially when compared to other alternatives for professional design. When paying promptly by check and purchasing our \$750 minimum in plant material, the entire design and delivery is only \$150!

Date

By signing, I accept the terms above. Projects out of Spokane may require additional fees. Projects requiring multiple meetings with landscapers or homeowners may require additional fees under some circumstances. Failure to pay for plant material or consultation work performed within 30 days may lead to repossession of the products, liens against the property, reports to credit bureaus, legal action at the customer's cost to whatever extent deemed necessary, turning over to collection, interest due at the highest allowable rates.
